

THE 5 LINES OF THE MUSICAL STAFF

These five lines represent the musical staff. Take a pencil or a pen and fill in the lines so that they are solid. Next place the appropriate number on each line. Place the number ONE on the bottom line. Place number TWO on the next line up. Place number THREE on the middle line. Place the number FOUR on the next line above. Place number FIVE on the top line. You have to memorize the line numbers of the staff as a beginning step in music theory.

When you finish the above exercise your staff should look like the one below. As simple as this exercise is, it is very important that you complete the exercise in order to reinforce your memory to know this fact without hesitation, because sometimes in music we refer to line 3 of the staff. Or, we might say, look at line 2 of the staff.
