

THE 4 SPACES OF THE MUSICAL STAFF

These FOUR SPACES are a part of the musical staff. Take a pencil and fill in the LINES of the musical staff. Afterwards, write in the number for the spaces in-between the lines.

Five blank musical staves, each consisting of five horizontal lines, provided for the student to practice writing numbers in the spaces between the lines.

When you finish the above exercise your staff should look like the one below. As simple as this exercise is, it is very important that you complete the exercise in order to reinforce your memory to know this fact without hesitation, because sometimes in music we refer to space 3 of the staff. Or, we might say, look at space 2 of the staff.
