

# Down In The Valley

## With Added Bass Run

### And Added Right Hand Fill-In

Arranged By John Axsom

In this lesson we are continuing with the 9th chords. These chords can also be called a 2 chord. For example C2 or C9. They are probably better called a 2 chord. Anyhow, when you play the comp pattern below, you have to keep your fingers as long as you can on the keys so that they ring out. If you have a sustain pedal on your keyboard then use it. Otherwise, the comp pattern is going to be to "choppy".

WE ARE ADDING A BASS RUN INBETWEEN THE CHORD CHANGES IN THIS ARRANGEMENT. And we are adding a Right Hand Fill-In.
