3/4 Time Left Hand Pattern
Just As I Am

This 3/4 time pattern is a stretch for the left hand. You have to kind of rock your hand over to the right to play the last note of the pattern. Some people just lift their hand up in order to reach the last note of the pattern, especially if they are using the sustain pedal.

Use the sustain pedal a lot to keep the left hand pattern ringing. Release the sustain pedal after each measure, then use it at the beginning of the next measure.
